

LET IN

3000

ELECTRONIC COIN BOX FOR INDOOR USE

Advantages with Let In 3000

- Robust
- Energy efficient
- Easy to use
- Easy to maintain
- Optional fee, different coins
- LED indication engaged/vacant
- Safe coin deposit
- Can be connected to electrical appliances within the room
- Compatible with card payments

Modern design

- The Let In 3000 is a reliable coin box with a sleek, modern exterior and advanced functions.
- The standard colours are black or white, but the coin box can also be finished in any optional colour.

How does it work?

- The Let In 3000 accepts pre-set currencies, coins and tokens.
- A number of different currencies and coins types can be accepted simultaneously.
- The coin box calculates the payment. Upon correct fee payment, the door is unlocked.
- No change is given, which facilitates maintenance and increases the revenue.
